September 3-4, 2026

Program

Thursday, September 3rd

10h00-11h15 - Arterial Disease Essentials

1. Carotid Artery Disease in 2026: Practical Management of Symptomatic and Asymptomatic Patients – *Dr Sanjiv Keller (Lausanne)*
2. Peripheral Artery Disease: Key Concepts and Contemporary Management - *Dr Lucia Mazzolai (Lausanne)*
3. Lower Limb Revascularization in PAD: Current Indications and Techniques - *Dr Marc Schindewolf (Berne)*
4. How to interpret angiography imaging ? tips and tricks – *Dr Lea Attias (Bienne)*

11h15-11h30 - Coffee break

11h30-12h45 - Rare and Lymphatic Disorders

1. Rare Vascular Diseases: What Every Angiologist Should Know –*Dr Marc Blondon (Geneva)*
2. Vascular Malformations: Classification, Diagnosis, and Clinical Approach - *Dr Sarah Bernhard (Bienne-Berne)*
3. Lipoeidema: Recognition, Diagnosis, and Management – *Dr Enrica Porceddu (Lausanne)*
4. Lymphoedema: From Pathophysiology to Clinical Practice – *Dr Lucia Mazzolai (Lausanne)*

12h45-13h30 - Lunch

13h30-17h30 - Hands-On Workshops

1. Fundamentals of Arterial Endovascular Interventions - *Dr Lea Attias (Bienne)*
2. Advanced Arterial Endovascular Techniques - *Dr Corina Canova (Chur), Dr Marc Schindewolf (Bern)*
3. Vascular Ultrasound: Tips and Pitfalls in Aortic and Peripheral Arterial Assessment - *Dr Sanjiv Keller (Lausanne)*
4. Ultrasound Assessment of Haemodialysis Access: A Practical Approach - *Dr Charaf Zehani (Lausanne)*
5. Ultrasound-Guided Vascular Access and Puncture Techniques – *Dr Cedric Bron (Lausanne), Dr Vassili Njami (Lausanne)*

Friday, September 4th

08h00-09h30 - Venous Disease and Clinical Skills

1. Deep Vein Thrombosis and Pulmonary Embolism: A Diagnostic Update - *Dr Marc Righini (Geneva)*
2. Pelvic Venous Disorders: Diagnosis and Treatment Pathways - *Dr Marco Fresa (Lausanne)*
3. Chronic Venous Disease: Understanding Superficial and Deep Venous Insufficiency – *Dr Matteo Vecchio (Sion)*
4. Vascular Erectile Dysfunction: Diagnosis and Clinical Management -*Dr Nicolas Diehm (Aarau) via webex*
5. How to Critically Read and Interpret a Scientific Paper – *Dr Sc. Xhyljeta Luta (Lausanne)*

09h30-09h45 - Coffee break

09h45-11h15 – Advanced Topics in Vascular Medicine

1. Vasculitis: A Practical Approach to Diagnosis and Differential Diagnosis – *Dr Dörte Wyss (Winterthur) via webex*
2. Acrosyndromes: Recognition and Diagnostic Work-Up – *Dr Enrica Porceddu (Lausanne)*
3. Interventional Treatment of Acute DVT: Patient Selection and Techniques – *Dr Marco Fresa (Lausanne)*
4. Exercise Therapy in Peripheral Artery Disease: Evidence and Clinical Application – *Dr Sc. Stefano Lanzi (Lausanne)*
5. 10. Abdominal and Popliteal Aneurysms: Diagnosis, Treatment, and Surveillance - *Dr Corina Canova(Chur)*

11h15-12h15 – Practical Workshop

Compression Therapy and Manual Lymphatic Drainage: Essential Knowledge for Vascular Physicians - *Valentina Ferrari, Tiago Amorim (Lausanne)*

12h15-13h00 – Lunch

13h00-16h00 - Hands-On Workshops

1. Deep Venous Interventions I: Acute DVT and Mechanical Thrombectomy - *Dr Alexandra Tuleja (Bern)*
2. Deep Venous Interventions II: Chronic Venous Obstruction, PTS, and IVUS-Guided Procedures - *Dr Marco Fresa (Lausanne)*
3. Ultrasound-Guided Vascular Access and Puncture Techniques – *Dr Vassili Njami (Lausanne)*
4. Superficial Venous Interventions: Principles and Practice - *Dr Matteo Vecchio (Sion)*
